EDUCATION

Toronto Metropolitan University

September 2023 – April 2028 (Expected)

Bachelor of Science in Computer Science w/Hons

Toronto, ON

- 90%+ Entrance Scholarship, Faculty of Science Dean's List
- Relevant Courses: Data Structures, Algorithm Design, Operating Systems, Object Oriented Programming

CERTIFICATIONS

Tensorflow Developer Certificate

January 2024 – January 2027

Google

PCAP - Certified Associate in Python Programming

July 2023

OpenEDG Python Institute

EXPERIENCE

Software Engineer Intern

May 2026 – August 2026

Lifestyle Home Products

Mississauga, ON

- Built automated ETL pipelines in Google Apps Script integrating Salesforce, Centah, ADP, and SureCommand into unified reporting tables, with fuzzy name matching and self-healing syncs.
- Developed a role-scoped web dashboard and scheduling tools featuring secure login, availability and call-out workflows with email notifications, and an automated shift generator based on rep proximity and efficiency.
- Productionized the system for non-technical handoff by writing SOPs, automating nightly and hourly refreshes, and fixing data-integrity bugs to keep reporting accurate.

PROJECTS

Chatty | *HTML, CSS, JavaScript, MongoDB, Express, React, Node.js, Socket.io*

- Built **real-time chat app** using **MERN** stack and **Socket.io** with **instant messaging** for multiple concurrent users.
- Implemented **image sharing**, **profile customization**, and **responsive UI** for enhanced user experience.
- Developed RESTful APIs with **user authentication** and **optimized MongoDB database** for message storage.

Othello | *Java, Swing*

- Managed the backend and the front end of an Othello game using **Java** and **Swing** to build the UI.
- Applied an **algorithm** to calculate the best move for the bot and restrict illegal moves for the player.
- Designed a **saving and loading** mechanic including a leaderboard with all players and their scores.

Hackville 2024 - Sheridan College | *HTML, CSS, JavaScript, Python, TensorFlow*

- Collaborated with a team to build an application that uses **machine learning** to help newcomers find synonyms.
- Developed back-end which **imports**, **preprocesses** and **analyzes** datasets using data analysis libraries.

TECHNICAL SKILLS

Languages: Java, Python, SQL (Postgres), JavaScript, HTML/CSS, C, C++

Frameworks: React, Node.js, JQuery

Developer Tools: Git, AWS, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, Jupyter, Linux, Anaconda

Libraries: Tensorflow, Keras, Scikit-Learn, NumPy, pandas, Matplotlib, Swing

VOLUNTEER EXPERIENCE

Event Coordinator

September 2019 – April 2020

ISNA Canada

Mississauga, ON

- Organized events and managed food distribution, attracting 200+ attendees per event.
- Engaged with 100+ customers, providing excellent service at a charity event to raise funds against poverty in GTA.

Project Assistant

March 2022 – May 2022

Masjid Al-Farooq

Mississauga, ON

- Led a team of 10+ volunteers in fundraising, raising \$500 for mosque construction projects.
